BIG TREE - Responsibility For Green Seed

MISSION

BIG TREE is committed to providing customers with quality products and services with the goal of developing and creating sustainable value for the business.

VISION

Become the leading symbol of trust of customers in the field of Plant Protection drugs and Medical Insecticide.

VALUE

Bring the best economic and human values to shareholders, investors, and customers.
Bring a second family to employees with the best benefits, income, and promotion.

“Big Tree, as the parent company of BigFive, will officially take over all of BigFive's business operations from July 1, 2025. The import figures, images and marks built during BigFive's development will be inherited by Big Tree, continuing to develop more strongly, in order to maintain continuity, prestige and commitment to accompany customers on the journey of sustainable agriculture.”

VALUES

1

Continuously improve product quality

2

Always customer-oriented

3

Dynamic, Creative

4

Cooperation, Sharing, Trust

5

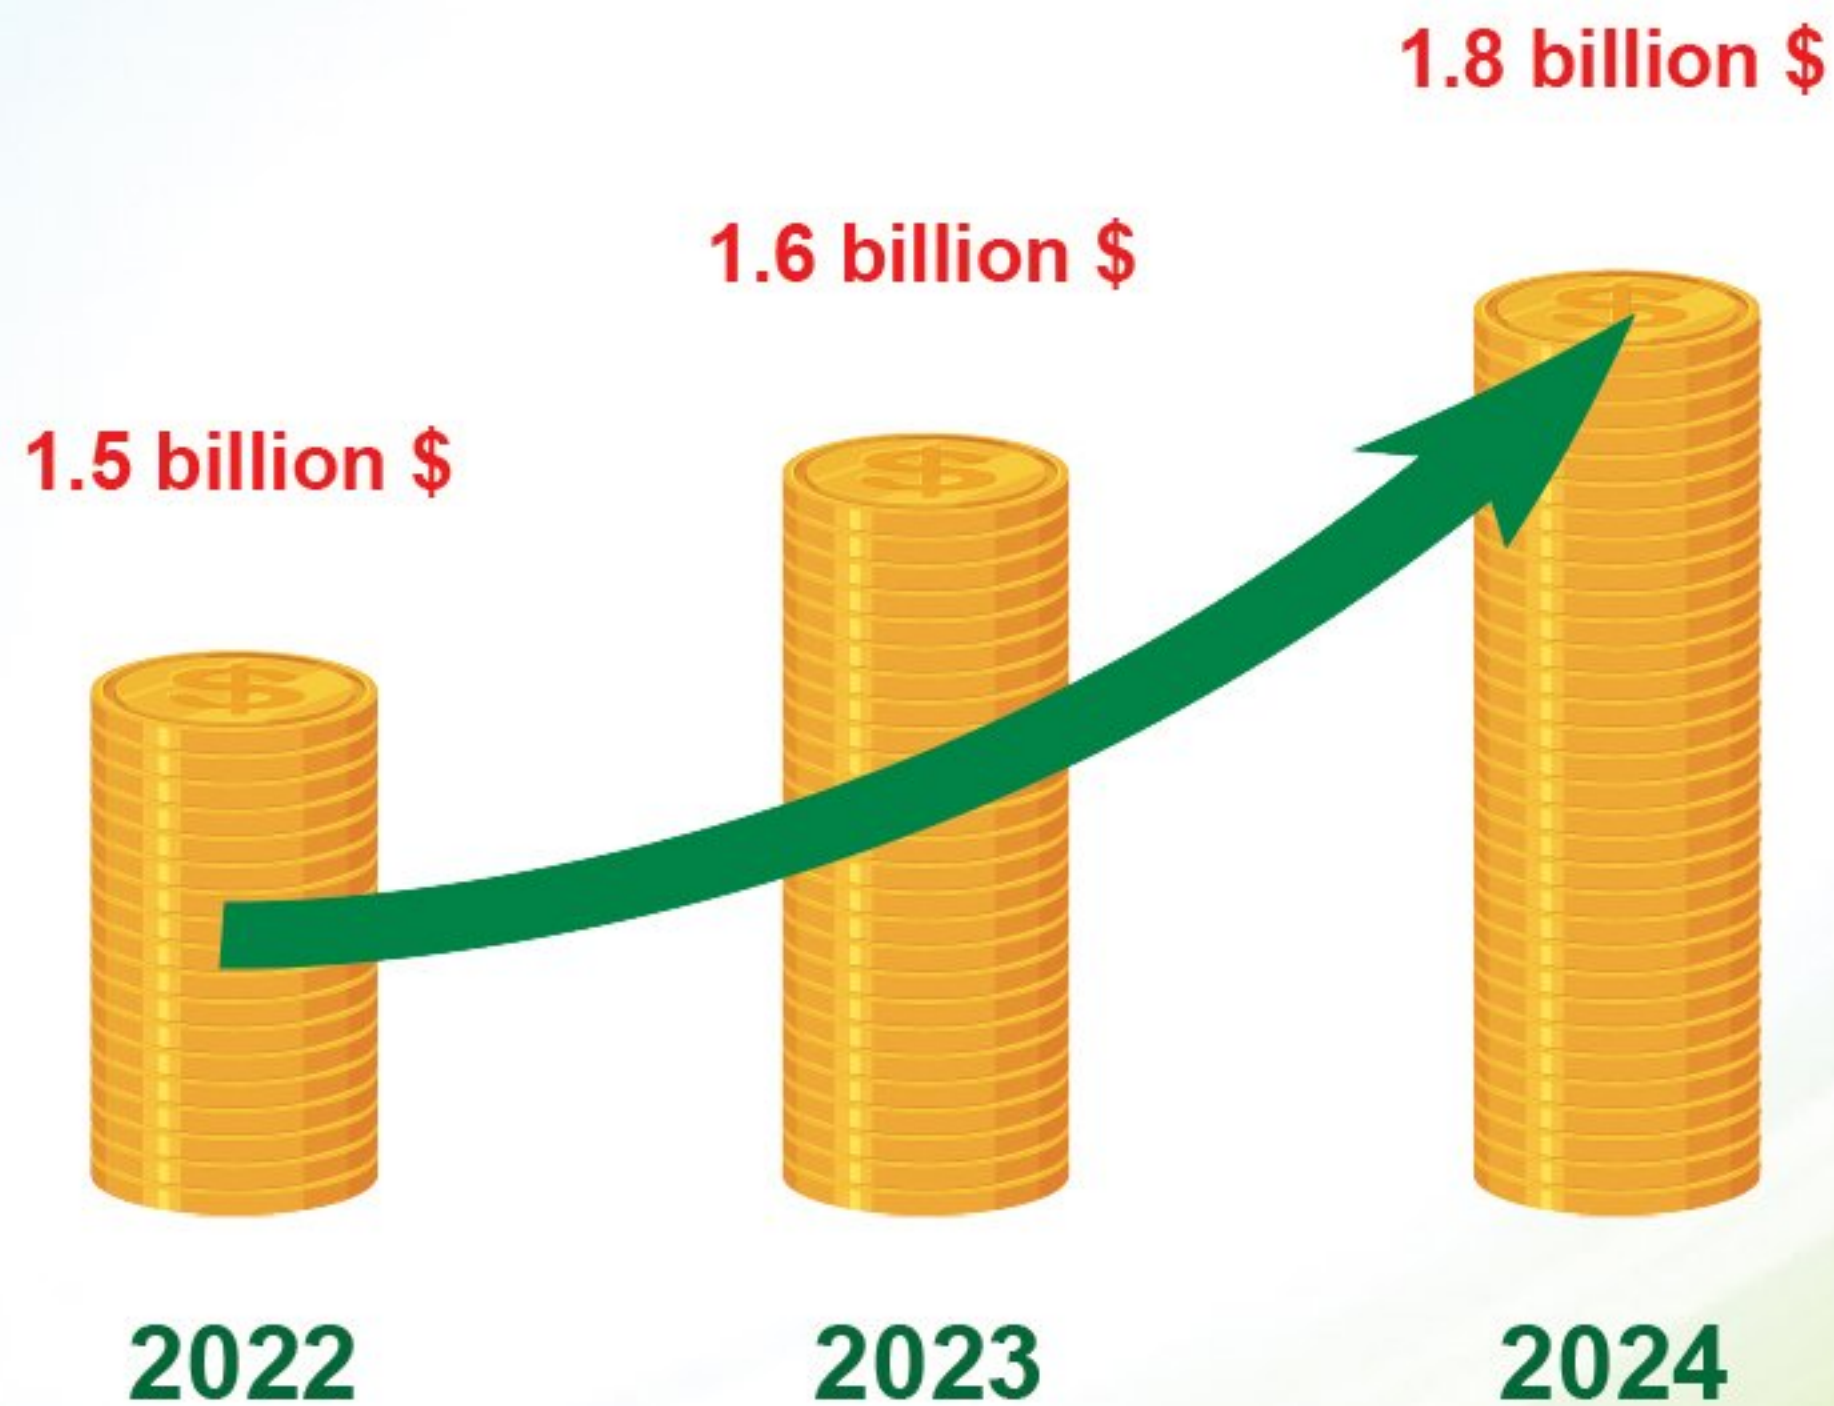

Professional
